

The Complete Cloud Imaging Solution

Connecting radiologists, clinicians, and patients through a cloud-native enterprise imaging platform. Built for faster deployment, financial flexibility, and effortless scalability.

Scan Me

adva.health/advapacs

Streamlined Imaging. Efficient Collaboration. Faster Reporting.

Configurable Reporting Worklist

Highly configurable reporting worklist with an **FDA-cleared zero-footprint viewer** with **AI-driven voice recognition** for faster reporting.

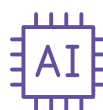

Clinician Portal

Secure, **instant image and report access** for clinicians. Anytime, anywhere.

Patient Portal

Online **image and report access** for patients. **No CDs, no admin hassle.**

AI-Ready Platform

Integrated with **AI partners and platforms** for **diagnostic support** and **workflow automation**.

Operational and Financial Flexibility

- Go live in as little as 15 minutes
- Unlimited users and modalities
- Pay-as-you-go with no costly hardware or software
- Continuous updates, always up to date

AdvaPACS supports integration with a wide range of clinical and enterprise systems through open standards and APIs.

adva.health/advapacs

Built for the Cloud. Designed for Growth.

Cloud Imaging Platform (PACS + VNA)

Manage and access images across sites in one **cloud-native system**.

AdvaView - Zero-Footprint Viewer

View studies securely from any device, no **software or plugins needed**.

Cloud-Native Architecture

Elastic scalability and **high availability** on AWS with 99.9999% data durability. **No servers to maintain or upgrades to manage**.

Fully Managed SaaS

Continuous delivery with automated updates, **optimized performance**, and **no maintenance or support fees**.

Security & Compliance

HIPAA and **ISO/IEC 27001:2022** compliant. Encryption, **SSO**, **MFA**, monitoring, and **penetration testing** ensure controlled access.

Interoperability

Supports **DICOM**, **DICOMweb**, **FHIR**, **FHIRcast**, **HL7**, and **SAML SSO** for seamless system integration.

Did You Know? AdvaPACS can be deployed flexibly as:

- Clinical PACS
- Hybrid Archive
- Disaster Recovery
- Business Continuity

AdvaPACS Redefines Imaging Ownership

\$0

No upfront investment.
Pay only for what you use.

\$0

No per-user or
modality fees.

\$0

No annual support or
maintenance fees.

No lock-in
contracts.

Trusted by Healthcare Providers Worldwide

- Managing over 700 million medical images
- Serving 5,000+ users across 9 countries
